

## Please join us for a special program designed for the professional caregiver.

### Topics include:

#### **A Walk Through Dementia**

Learn about the physical disabilities that coexist with memory loss and experience the fractured reality of a person living with dementia.

#### **Caregiving Tips to Aid the Professional Caregiver**

Learn enhanced skills in the areas of empathy, observation, communication, time management, adaptability, positive attitude and appropriate body language to help you better support patients in your care.

Meet your Speaker: Amelia Cottle
